# What Is "Your e-Locker"?

Your e-Locker typically refers to a digital or virtual storage system where users can store, access, and manage documents, files, and other types of data securely. The concept is similar to a traditional physical locker, but in this case, it's an online cloud-based service. Your e-Locker is popular for personal use, business data storage, and in environments where secure, remote file access is needed.

# We Know **What You Need** For Your Business

Easily retrieve what you need, and upgrade your storage as you grow. We make data privacy more accessible so you can charge in with a secure data cloud, at your fingertips.

**01.** BOOST BUSINESS EFFICIENCY

**02.** REDUCE EXPENDITURE

**03.** INCREASED PRODUCTIVITY

**04.** ORGANISED DOCUMENT STORAGE

# Features of Your e-Locker

## Pre-Defined Structure

It is always the "Human" problem. People forget, or put it down somewhere, or hit the wrong button so difficult to find main documents. We are providing **"Pre-Defined Structure"** it helps to manage typing errors, misreading handwritten documents, or skipping fields so **"Pre-Defined Structure"** helps to solve above all these problems.

## Users Management

Role-Based Access Control (RBAC): Assign roles (e.g., Admin, Manager, User) that define what actions a user can perform. Ability to create custom roles with specific permissions tailored to organizational needs. In-depth Permissions: Define permissions at a detailed level, such as read, write, edit, delete, or view-only access.
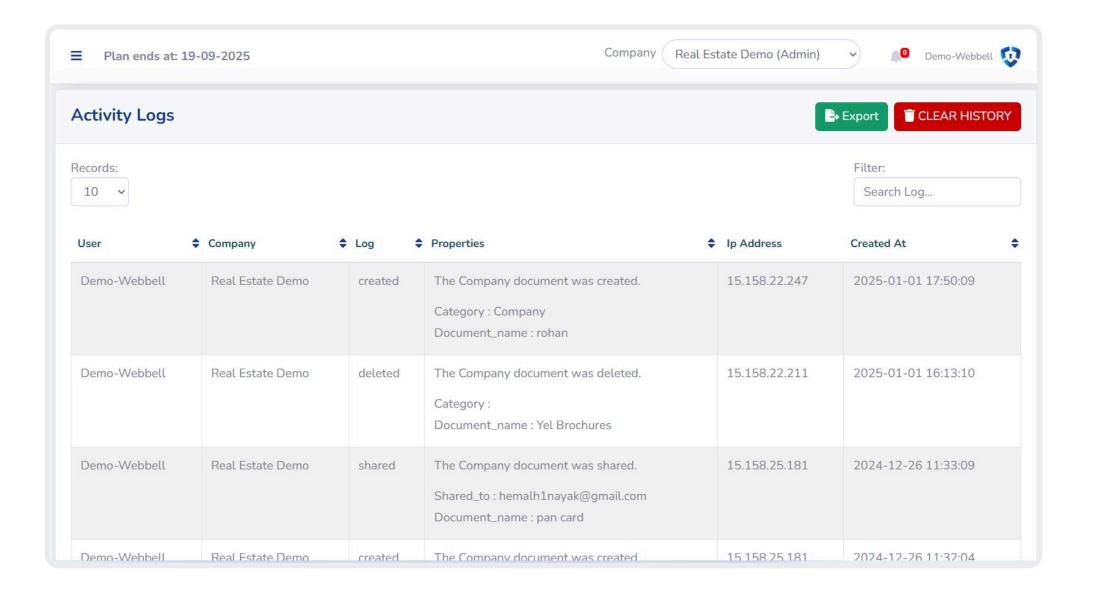

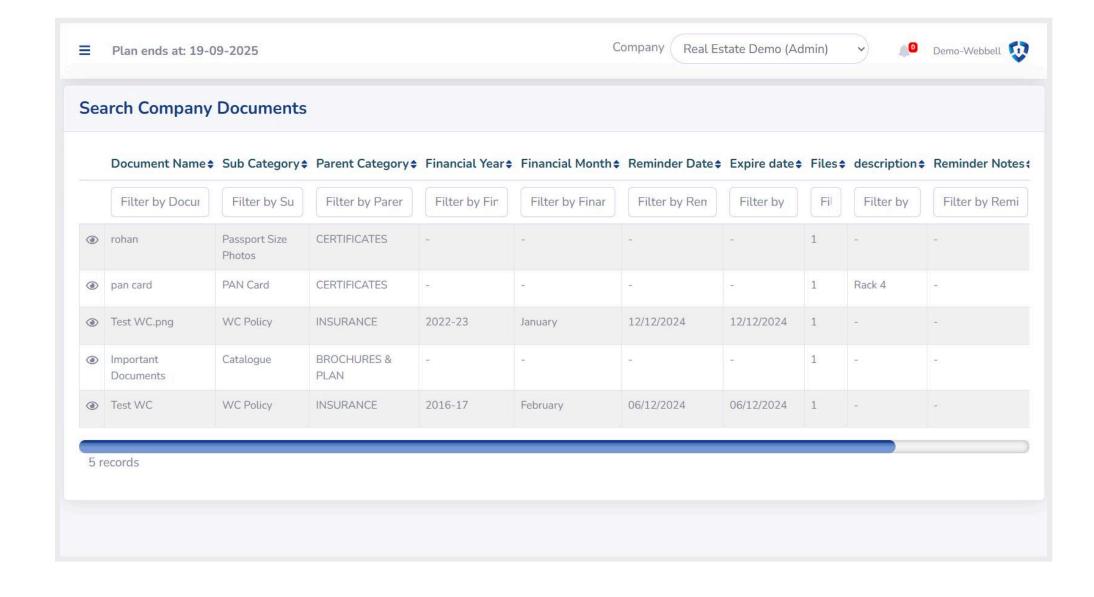

# User Activity Monitoring & Auditing

» Login History: Track user login attempts, successful logins, and IP addresses.

» Audit Logs: Maintain logs of all user actions within the system for auditing and security purposes.

» Real-Time Monitoring: Ability to monitor user activity in real-time for security or Compliance reasons.

# Global Search
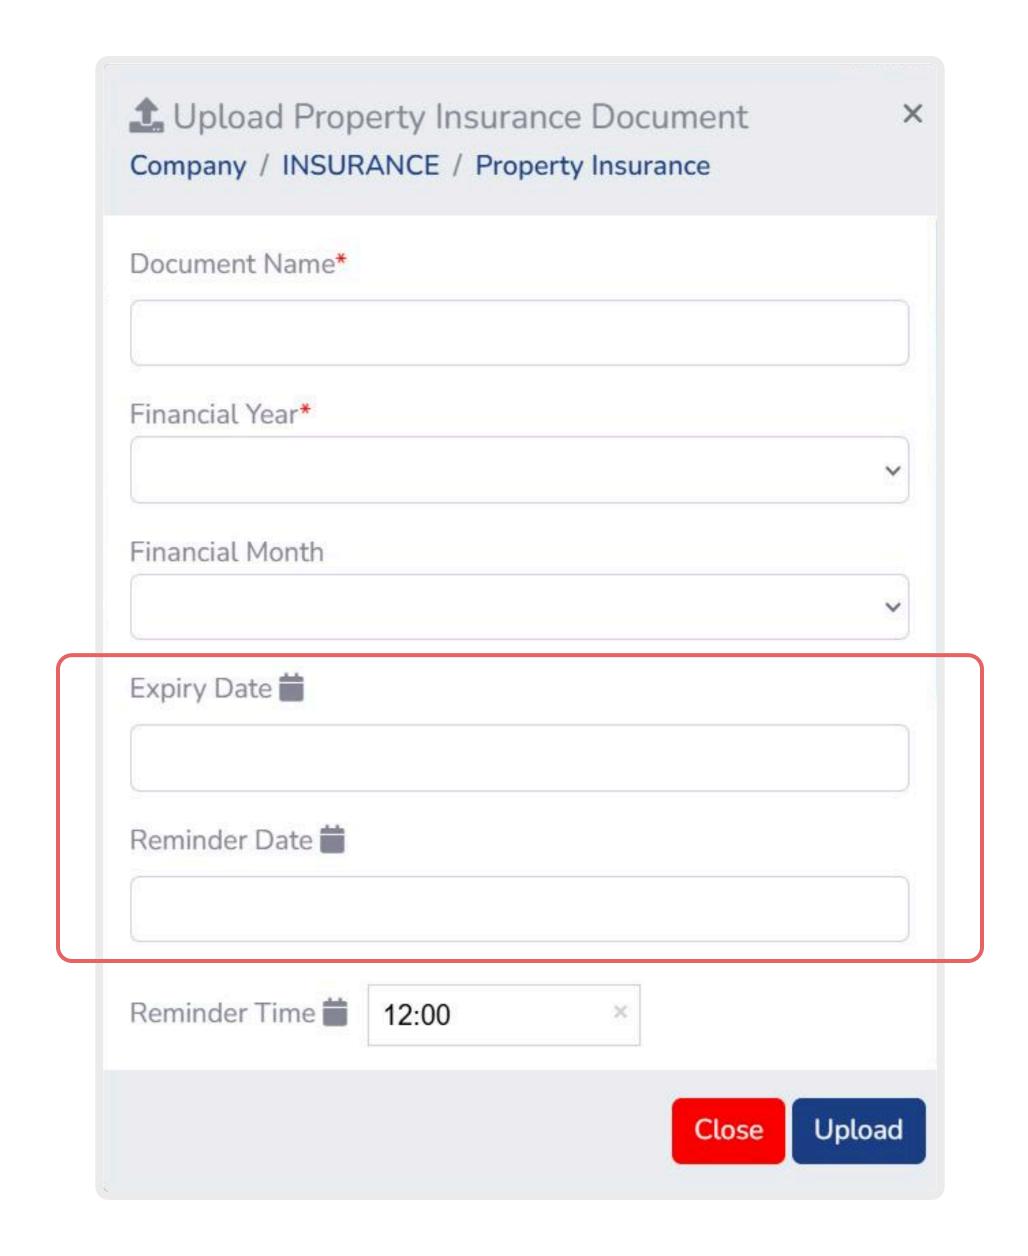

» You can find the document you want to view or retrieve from your bulky data at your finger-tips.

» Even if you have uploaded a file from any content, You will be able to search easily.

» These feature is our USP.

# Alerts

» Customizable Expiry Notifications: Users can set specific expiry dates for licenses, permissions, contracts, or any types of renewable documents.

» The system automatically Sends reminders before the expiry date, ensuring users have adequate time to take necessary actions (e.g., renewing contracts, scheduling follow-up etc).

» Multiple Reminder Intervals: Set reminders at various intervals before the expiry or renewal date (e.g., 1 week before, 3 days before, 24 hours before).

# Overcoming Workplace Challenges with Your e-Locker

## Problems

**Complex Folder Hierarchy:** Managing and navigating through multiple folders and subfolders is cumbersome.

**Inefficient Search:** Finding specific files or data is time-consuming and challenging.

**User Mismanagement:** Lack of proper control over user roles, rights, and permissions.

**Inactive Users:** Difficulty tracking or addressing user inactivity over time.

## Solutions

**Structured Organization:** Pre-defined folder structures ensure easy and logical file management.

**Global Search Feature:** Quickly locate files with advanced and efficient search capabilities.

**User Role Management:** Assign and manage roles, rights, and permissions for secure access.

**Real-Time Activity Log:** Monitor user activity, including real-time tracking of IPs and dates.

## Problems

**Using different tool for sharing :** Using multiple platforms for file sharing creates inefficiency.

**Staff Dependency:** Reliance on specific staff members for document access and management.

**Overlooked Document Expiry:** Missing deadlines for document renewals or updates.

**Location Restriction:** Dependence on physical office access for important documents.

**Disparate Tools and Resources:** Managing tasks across multiple tools and resources hampers productivity.

## Solutions

**Integrated File Sharing:** Share files seamlessly within the system, eliminating external tools.

**Minimized Staff Dependency:** Empower team members with centralized and self-service access.

**Automated Alerts:** Stay compliant with timely alerts for document renewals and statutory obligations.

**Remote Accessibility:** Access your documents from anywhere, bringing your office with you.

**Unified Solution:** Manage all tasks efficiently under one roof with Your E-Locker.

- Project Management Consultant

# Our Company
# Timeline

Founded in 2020 with the aspiration to emerge as a forefront provider of web-based solutions.

## The Inception

A visionary partnership was formed to lay the foundation for what would soon become a remarkable journey.

**2016**

## Research

Delved deep into market trends, emerging technologies, and consumer needs.

**2017**

## Development

Spent countless hours brainstorming, refining ideas, and conducting feasibility studies.

**2018**

## Beta Version

Emerged with a beta version of the product, released to a select group of professionals and beta testers.

**2019**

## Product launch and company formation

Released the product, polished and refined, to bring solutions to age-old challenges.

**2020**

**Your e-Locker by WEBBELL SOLUTIONS PVT. LTD. is an ISO 9001:2015 & ISO 27001:2013, a digitalized platform for all sectors of business in the world.**
